

# Md Asifuzzaman Suvo

Frontend Engineer | React, Next.js, TypeScript

asif.zaman.suvo@gmail.com | +8801950931070 | Dhaka, Bangladesh | GitHub | LinkedIn | Portfolio

## PROFILE

Frontend Engineer with 5 years of experience building scalable web applications using **React, Next.js, and TypeScript**. Specialized in frontend architecture, enterprise platforms, and high-performance user experiences, with hands-on exposure to full stack development using Node.js, NestJS, MongoDB, and PostgreSQL.

## WORK EXPERIENCE

### SELISE Group *🌐*, Software Engineer

Jul 2022 – Present  
Dhaka, Bangladesh

- Completed full frontend UI, SSR, and API integration for Affiliate/Coupon modules, and built custom dynamic reports using ExcelJS.
- Developed a custom React-based plugin dashboard for the client WordPress ecosystem using Chart.js/Ant Design, and built a telecom web platform using Next.js, SCSS, and Storyblok CMS.
- Contributed as a core member in migrating both web and mobile apps from Angular 8 to 18, resolving deprecated packages and fixing breaking UI issues.
- Developed a core Collective Invoice module, built client-side PDF downloads using jsPDF, and managed microservice-integrated Liquid templates via Postman.
- Implemented frontend role-based authentication (RBAC) for conditional content visibility and standardized uniform address formatting across the entire application.
- Fixed critical production table bugs (select/deselect and bulk actions) and implemented Playwright E2E testing to enhance CI/CD reliability.

### ReformedTech *🌐*, Junior Software Engineer

Oct 2021 – Jun 2022  
Dhaka, Bangladesh

- Crafted high-performance, responsive UIs from complex Figma designs using Next.js, React, and Tailwind CSS, significantly improving cross-device compatibility and page loading speed.
- Accelerated core feature timelines by optimizing component-driven workflows and integrated secure OAuth 2.0 (Google Sign-In) via GCP to protect user access.
- Redesigned vital platform modules (Careers & About sections), resulting in a smoother user navigation flow and stronger target user engagement.

### eGeneration LTD *🌐*, Intern

Jan 2021 – Jul 2021  
Dhaka, Bangladesh

- Analyzed and visualized large-scale datasets to build public health dashboards across all 64 districts of Bangladesh, enabling real-time monitoring and nationwide health bulletin distribution.
- Resolved critical bugs in Angular-based interfaces to boost platform stability and collaborated with cross-functional teams to streamline content delivery flows for healthcare officials.

## SKILLS

**Languages & Frameworks:** React.js, Next.js, Angular, TypeScript, JavaScript (ES6+)

**State Management, Data & Visualization:** TanStack Query (React Query), Redux Toolkit, Zustand, GraphQL, REST APIs, Chart.js

**UI & Styling:** Tailwind CSS, Chakra UI, shadcn/ui, Material UI

**Testing:** React Testing Library, Playwright, E2E Testing

**Tools & Platforms:** Git, Postman, JIRA, Google Cloud Platform

**Frontend Architecture & Practices:** SSR (Next.js), SSG (Next.js), Performance Optimization, Reusable Component Design, Authentication Flow Integration, Prompt Engineering, Spec-driven Development

**AI & Developer Tools:** Cursor, GitHub Copilot, Claude

**Soft Skills:** Requirement Analysis, Cross-team Collaboration, Code Review, Technical Ownership, Agile/Scrum Environment

**Familiar With:** Node.js, NestJS, MongoDB, PostgreSQL, Microservice Architectures, Docker, CI/CD

## TECHNICAL CONTRIBUTIONS

**Open Source Contributor – Dart Ecosystem** *🌐*, *dart-lang/site-www* • Official Dart Repository

Merged pull requests into the official Dart documentation repository (*dart-lang/site-www*) via professional GitHub workflows.

## EDUCATION

**B.Sc (Hons) in Computer Science & Engineering (CSE)**, National University of Bangladesh

Mar 2016 – Aug 2021  
Dhaka, Bangladesh
